SKILLS

- ❖ **Programming Languages:** C++, Java, Python, JavaScript
- ❖ **Web Development:** React.js, Node.js, Express.js, HTML5, CSS3
- ❖ **Databases & Tools:** MySQL, MongoDB, Git, GitHub, Postman
- ❖ **APIs & Concepts:** REST API Development, Data Structures & Algorithms

EDUCATION

- Lovely Professional University *CGPA: 8.49(2023-2027)*
- XII (ISC) | City Montessori School *92% | 2022*
- X (ICSE) | City Montessori School *91.33% | 2020*

ACADEMIC PROJECTS

- **Food Fit AI – AI-Powered Personalized Nutrition & Meal Recommendation System**
Tech Stack: MERN (MongoDB, Express.js, React.js, Node.js), Generative AI
Full-stack application that recommends personalized meals by analyzing dietary preferences, nutritional data, and user goals with an interactive dashboard.
- **Budget Buddy**
Tech Stack: JavaScript, PHP, MySQL
Full-stack expense tracking application that helps users manage budgets, categorize spending, and visualize financial insights through an interactive dashboard.
- **Volunteer Opportunity Finder**
Tech Stack: Node.js, Express.js, MongoDB
Web application that connects users with relevant volunteer programs based on location, interests, and availability, with easy registration and tracking features.

ACHIEVEMENTS

- **Semifinalist, Flipkart Grid 7.0** – Selected among top participants nationwide in a prestigious tech competition.
- **Contributor, GirlScript Summer of Code (GSSoC)** – Contributed to open-source projects by fixing issues, raising pull requests, and collaborating with developers nationwide.
- **Earned NPTEL Certificate – Introduction to Machine Learning** with distinction, covering algorithms, data analysis, and evaluation techniques.
- Solved **100+ coding problems** on platforms like LeetCode and GFG, strengthening problem-solving and algorithmic skills.
